CAN
INSPIRE
ATTITUDE

Preparing and passing the CISA exam is the first step of joining this elite exclusive club of experts. Once a candidate has passed the CISA certification exam and has met the work experience requirements, the final step is to complete the application for certification.

Enterprises demand IS audit professionals that possess the knowledge and expertise to help them identify critical issues and customize practices to support trust in and value from information systems.

The skills and practices that CISA promotes and evaluates are the building blocks of success in the field. Possessing the CISA demonstrates proficiency and is the basis for measurement in the profession.

Course Summary

The course has Five (5) core domains as listed:

- The process of Auditing Information Systems
- Governance and Managements of IT
- IS acquisition , Development and Implementation
- IS operations Maintenance and Support
- Protection of Information Assets

In terms of weight the firsts and second domains carry a weight of 14 %, the third carry a weight of 19% , the fourth 23 % and the last 30%.

A CISA Certification will

- Confirms your knowledge and experience
- Quantifies and markets your expertise
- Demonstrates that you have gained and maintained the level of knowledge required to meet the dynamic challenges of a modern enterprise
- Is globally recognized as the mark of excellence for the IS audit professional
- Combines the achievement of passing a comprehensive exam with recognition of work and educational experience, providing you with credibility in the marketplace.
- Increases your value to your organization
- Gives you a competitive advantage over peers when seeking job growth
- Helps you achieve a high professional standard through ISACA's requirements for continuing education and ethical conduct
