## Career Pathways and opportunities

CCNA routing and switching curriculum builds the skills you need to get hired and succeed in jobs related to networking computers , devices and things.

Whether you're preparing for your first job or specializing with more study, CCNA is a great foundation.

Career pathways include: network technician, support engineer, network administrator, network designer, network engineer, and more.

Certification: Cisco CCENT or Cisco CCNA Routing and Switching

## Course Summary

The CCNA Routing and Switching curriculum is a gateway to entry-level networking jobs and IT careers. The curriculum consists of 4, 70-hour courses:

- Introduction to Networks,
- Routing and Switching Essentials,
- Scaling Networks, and
- Connecting Networks.

The first 2 courses prepare you for the Cisco CCENT certification exam or to study CCNA Security. All 4 courses are recommended before taking the Cisco

- Develop a working knowledge of routing, switching, network applications, protocols, and services.
- Study with an instructor in the classroom and access expert content online anytime.
- Practice what you learn on both real equipment and Cisco Packet Tracer, a network configuration simulation tool.
- Get immediate feedback on your work through built-in quizzes and tests.
- Prepare for the workplace with collaborative projects and presentations.
- Connect with the global Cisco Networking Academy community.
