## IBM DIGITAL NATION AFRICA(D-NA)

The Digital – Nation Africa (D – NA) aims to empower Africans in digital literacy for free. Our curriculum is designed for the following three types of audience:

**Explorers**—People with basic digital literacy that are keen on learning about the new emerging technologies.

**Innovators**—Designed to help accelerate innovation and enable ‘would be’ innovators to bring their ideas to life

**New Collars**—For those that want to align their skills to the requirements of the job market and seek better employment opportunities

# CYBER SECURITY ANALYST

## Interesting Highlights

Currently, the cost of cybercrime for the global economy has been estimated at \$445 billion annually. The need to protect a company's online data infrastructure is now more important as information technology continues to advance.

Fee: ksh . 10, 000 /=

Setting Trends in Higher Education ,Research and innovation

## Career Pathways

and

## opportunities

The Cyber Security Analyst will learn how to scan web applications against vulnerabilities and attacks. This will require skills in web application security such as scanning and testing applications in order to identify and analyze security vulnerabilities. Training topics will include OWASP security standards, Glassbox scanning, cross-site scripting, broken authentication, cross-site request forgery and thread analysis and reports.

## Course Summary

The Cyber Security Analyst roadmap includes the following courses and exams/badges: Module I – Cyber Security Overview

Module II – Cyber Security Foundations

Module III – Cyber Security Analyst

*IBM Official Badges*

Cyber Security Analyst: Explorer | Mastery Award

*Associated Job Roles:*

Security Intelligence Analyst

Mobile Application Developer

Cloud Application Developer
