

**Affiliation:** Jomo Kenyatta University of Agriculture and Technology,  
Department of Computing

**Specialization:** Software Engineering

**Research interest:** Software Engineering, Computer Security and Social Computing.

**Goal:** To Contribute to development through sustainable software applications

#### Current Research Interest and ongoing project

Spearheading the establishment of JKUAT Cyber Security Surveillance and Research Centre:

This Centre once actualized will do short term training sessions-locally and internationally, Create short courses tailored to different security needs, offer internship for students provided by the initial multi-stakeholder member companies, and equip the center with state of the art equipment to enable monitoring, data collection and mitigation of cyber threats. In addition, the centre will be used for incubation of innovations.
